THE FTA ADVANTAGE

1 Flexibility

With online learning, students can access their coursework from anywhere, at any time, and can work at their own pace.

This is particularly useful for students who have other commitments, such as work or extracurricular activities, or for those who live in remote or rural areas.

2 Personalized Learning

Online courses are designed to be self-directed. Students have control over their learning experience. Additionally, online courses provide individualized feedback from instructors, which can help students better understand their strengths and weaknesses.

3 Wide Course Range

We offer a wide range of courses, including advanced placement (AP) courses, NCAA-approved courses and elective courses, among others.

This allows students to tailor their education to their interests and career goals, and provides a more comprehensive educational experience.
